

## PUBLIC NOTICE

**Morrill Motors of Tennessee** has applied to the Tennessee Air Pollution Control Division (TAPCD) for a [major source operating permit](#) subject to the provisions of paragraph 1200-3-9-.02(11) of the Tennessee Air Pollution Control Regulations (also frequently referred to as Title V regulations). A major source (Title V) operating permit is required by both the Federal Clean Air Act and the Tennessee Air Pollution Control Regulations.

EPA has agreed to treat this draft Part 70 permit as a proposed Part 70 permit and to perform its 45-day review provided by the law concurrently with the public notice period. Although EPA's 45-day review period will be performed concurrently with the public notice period, the deadline for submitting a citizen petition to object to the EPA Administrator will be determined as if EPA's 45-day review is performed after the public comment period has ended (i.e., sequentially).

The status regarding EPA's 45-day review of this project and the deadline for submitting a citizen petition can be found at the following website address: <http://www.epa.gov/region4/air/permits/Tennessee.htm>.

The applicant is **Morrill Motors of Tennessee** with a site address of 112 Giles Morrill Lane, Erwin, Tennessee. They seek to obtain a major source operating permit for their dip coating operation. However, it should be noted that this facility has current state operating permits.
